krede [kredi:]

creative, design.

Only when working with a good chair, you can have the power to immerse yourself in creating new opportunities. 'krede' was born as a result of the long design and research on 'seating'. The design philosophy of 'krede' is to make a chair that is faithful to the basics.

If you are looking for a good chair, there is 'krede'

sit in joy, krede

K10 is ergonomically designed to satisfy various postures and body conditions of various users regardless of region, climate, race and culture. Also, the various functions contained in various parts of K10 minimize the fatigue of neck, waist and knees that the users could feel during long time sitting.

K10 series

K20 is characterized as a minimalist by its simple design, but a very smart chair having its minimum options an office chair should have, the Weight Balance Tilt that automatically adjusts the back/seat tilting tension in response to the weight of users, the refined style and the various color options of back & seat.

K20 series

KREDE chairs add more value to the various spaces. The design concept of K30 and K30S are going together, but it goes a separate way as per the usage. You can make brighter and more beautiful office space in the same space with various KREDE chairs.

K30S & K30 series
