krede [kredi:]

creative, design.

Only when working with a good chair, you can have the power to immerse yourself in creating new opportunities. 'krede' was born as a result of the long design and research on 'seating'. The design philosophy of 'krede' is to make a chair that is faithful to the basics.

If you are looking for a good chair, there is 'krede'

K40 series has been developed to enhance the seating experience through ongoing research and development by Krede. Specifically, the K40 is designed to provide natural support to the waist, with the seatrest achieving the optimal thickness and hardness. The K40 series, a complete product of simple and minimal design, offers a great pleasure and satisfaction in the experience of "sitting."

2025 new task chair
K40 series

K10 is ergonomically designed to satisfy various postures and body conditions of various users regardless of region, climate, race and culture. Also, the various functions contained in various parts of K10 minimize the fatigue of neck, waist and knees that the users could feel during long time sitting.

K10 series

K20 is characterized as a minimalist by its simple design, but a very smart chair having its minimum options an office chair should have, the Weight Balance Tilt that automatically adjusts the back/seat tilting tension in response to the weight of users, the refined style and the various color options of back & seat.

Imagine the most comfortable things
that make you feel cozy.
Such as petting a fluffy cat or
the fragrant scent of just-brewed coffee.
Like those moments, the **K25** is the task
chair that provides comfort.
It is an enhanced version of K20,
offering more practical functions.
In addition to the advantages of K20,
there is an optional headrest and lumbar support.
We hope you'll experience full relaxation
with our **K25**.

2025 new task chair
K25 series

KREDE chairs add more value to the various spaces. The design concept of K30 and K30S are going together, but it goes a separate way as per the usage. You can make brighter and more beautiful office space in the same space with various KREDE chairs.

Create a meeting space
in various ways with K30S
The K30S series, which
has a variety of line-up,
is very suitable when
you need a chair which is
easily movable and quiet,
for example, meeting
space at school, company,
bank or library.

K30S series

K55 series is newly created by preserving its beautiful design and finding the best material. The urethane foam backrest that surrounds the whole body offers a sensation of sitting on a soft cloud. K55 drastically eliminated complex features to focus more on the basics of "sitting". It also has designed to optimize visual and spatial aesthetics. Experience the newly upgraded and comfortable K55 for yourself.

E55 will be the new standard for “Luxurious Design”.
Regardless of gender, career and age,
your discernment is the new standard for luxury.
Your choice will make you shine more.

"The TRUE Leader" never brag
about their success.
For you who has silently
accomplished in your life.
E55 will complete your success better.
